ShalePlay App

January 15, 2014

SHALEPLAY APP

Powered by Bracewell & Giuliani's energy and environmental attorneys and government relations professionals, the [ShalePlay app](#) is the first of its kind, offering a comprehensive resource on news and information related to shale gas and hydraulic fracturing, including the latest industry trends and updates.

The app requires iOS 6.0 or later and is compatible with iPhone, iPad, and iPod touch. This app is optimized for iPhone 5. An Android version will be available in the first half of 2014.
