

Bracewell's technology team utilizes a well-rounded approach to facilitate protection of technology assets to align with the long term goals of the client. We provide practical coverage in all areas of Technology and Intellectual Property, with established practitioners who file, prosecute and litigate patents, trademarks, and copyrights, and provide advice and support on an array of transactional or adversarial matters. Clients tell *Chambers USA 2016* "they operate in a very team-oriented fashion, and are able to pull in people from different groups as needed." We also counsel on outsourcing, licensing, technology transfers and joint venture agreements. We are particularly active in core industries around the globe from energy, technology, finance and retail.

Bracewell's technology team utilizes a well-rounded approach to facilitate protection of technology assets to align with the long term goals of the client.
