PARIS – Bracewell AARPI advised IAMGOLD Essakane S.A. on the 100 percent acquisition from Total Eren S.A and Chariot Transitional Power France SAS of Essakane Solar SAS, a company that operates a solar photovoltaic plant with 12-MWAC installed capacity located at the Essakane gold mine, province of Oudalan, in Burkina Faso.

This deal is particularly noteworthy as it is related to a captive solar power project. It's one of the first of its kind in the region, combining the mining sector with the renewable energy sector.

Simon Cudennec commented: "We are glad to have been part of a transaction that demonstrates the IAMGOLD's commitment to sustain the use of renewable energy and reduce greenhouse gas emissions in Burkina Faso."

Paris partner **Simon Cudennec** led the Bracewell team, with support from Paris associate **Diane Dusserre**. The team was also supported in London by partner **Robert Meade**, and senior associates **Danielle Altink** and **Myriam Lace**.
