

FERC Renewable Energy Developments

Event

March 27, 2025 | 1 minute read

Catherine McCarthy will speak at The 2025 Infrastructure and Regulated Industries Section Spring Meeting. Catherine will participate in a panel discussion titled “FERC Renewable Energy Developments.” This panel will provide a comprehensive overview of recent state and federal regulations, significant court rulings, and emerging trends in Antitrust, Renewable Energy, Taxation & Accounting, and Electricity/Infrastructure Security Law. Attendees will gain valuable insights into how these developments may impact their practice and clients, equipping them with the knowledge to navigate an evolving legal landscape effectively.
