

New Energies & Investors: What Does the Investment Landscape Look Like for New Energy Technologies

Event

October 31, 2024 | 1 minute read

Elizabeth McGinley will participate in a panel discussion titled “New Energies & Investors: What Does the Investment Landscape Look Like for New Energy Technologies?” The panel will explore the landscape of clean technologies, with a particular focus on hydrogen (H₂) and carbon capture and storage (CCS). It will provide insights into the investment strategies needed to support these technologies, highlighting the role of government support systems, how investors are prioritizing specific technologies, and the evaluation and comparison of emerging platforms, as well as the inherent risks and rewards associated with each. Additionally, the panel will discuss how these factors influence investment portfolios.
