

# Permitting in Federal and State Waters

Event

December 23, 2024 | 1 minute read

---

Ty Johnson will join a panel titled “Permitting in Federal and State Waters” at the Tulane Offshore Wind Conference: The Future for Offshore Wind in the Gulf and Nationally. He will discuss recent amendments to regulatory frameworks and the permitting processes for offshore wind projects. His presentation will cover navigating federal and state regulations, addressing environmental considerations, and collaborating with government agencies to streamline and enhance the permitting process for offshore wind energy development.
