Constance Rhebergen serves as chair of the firm's technology section. Ms. Rhebergen leverages her experience in litigating patent, trademark and copyright infringement cases, Internet domain name cases, trade secrets, unfair competition, as well as counseling on the protection of intellectual property assets in acquisitions and financial restructuring. She is known for quickly determining what clients need, and more importantly, what it takes to achieve these goals.

As a registered patent attorney, Ms. Rhebergen is extremely well placed to counsel and represent business clients in the identification, protection, licensing and transfer of intellectual property assets and in providing patent infringement and validity opinions. She brings to bear a comprehensive range of skills to advise businesses and government agencies in the United States, Latin America, Europe, MENA region and beyond with a proficiency on all matters concerning intellectual property, portfolio management and international intellectual property law disputes.

Ms. Rhebergen has a rich blend of skills honed over years of practice. As a result, she is highly proficient across a range of technologies, including energy, chemical and process applications, mechanical arts, and computer software. Industries served include oil and gas, hydrocarbon, processing, chemical processing, petrochemicals, agriculture and food, computer software, oil well drilling, carbon capture, synfuel, sports, education, telephone, wastewater, mechanical equipment, instrumentation, explosives, cryptocurrency and crypto mining. Ms. Rhebergen counsels numerous clients with respect to their intellectual property strategies, including registration of trademarks, copyrights and patents.
