

Experienced Outsourcing Counsel

Experience counts in structuring and negotiating outsourcing contracts, and that's why businesses choose to work with Bracewell.

Our lawyers work on large, complex outsourcing transactions, including ground-breaking deals that have set precedent and shaped the industry. For close to 20 years, we have acted on outsourcing deals with a combined value of more than \$25 billion.

We understand that we must not only resolve our clients' legal needs, but also generate value. Drawing upon our deep understanding of industry practices and market trends, we advise clients in structuring and negotiating innovative and comprehensive contracts based on their business requirements, objectives and constraints.

Working collaboratively with in-house counsel and external advisers allows us to leverage our practical experience to better understand the critical business and technical issues inherent in outsourcing transactions and offer creative and practical solutions. We have dealt with every major multinational and Indian outsourcing vendor, and understand their approaches to deal-making and execution.

We advise clients across multiple industries, including energy, financial services, consumer products, retail, manufacturing and commercial aviation.
