No Longer a Lightweight: Promising Paths Forward for Hydrogen-Related Energy

December 8, 2020

By: [Timothy A. Wilkins](#), [Austin T. Lee](#) and [D. Kirk Morgan II](#)

We are pleased to present a panel on the emerging role of hydrogen in the energy sector. In addition to an overview of hydrogen energy options from Dave Edwards of Air Liquide, the panel will include discussions of key policy, regulatory, and transactional issues that we anticipate shaping how the path of hydrogen energy will proceed in the U.S.
