

COP28 in 8: Renewables Champion Lindsay Fitzgerald, Vice President of Government Affairs, GEVO

Podcast | Madam Policy

December 14, 2023 | 1 minute read

Top advocate for renewables and GEVO Vice President of Government Affairs Lindsay Fitzgerald joined Madam Policy upon her return from COP28, sharing her insight and wisdom! As a leading renewable chemicals and advanced biofuels company, GEVO's commitment to sustainability was front and center at COP28. Join host [Dee Martin](#) as she talks to Lindsay about her "aha" moment when the policies she's been championing were embraced by US and foreign leaders at the COP. Want to learn more about the role of sustainable aviation fuel (SAF) in decarbonizing air travel? The role of sustainable agriculture in lower emissions? What advice this trailblazing renewable champion would give to her 24 year old self? Tune in now!

** The COP28 in 8 series is a series where we have 8-minute conversations with the women involved with COP28 in Dubai.

**This was recorded on December 13th, 2023, and events may have changed since this recording.
