

HSR Notification Thresholds Decrease Slightly for 2021

Update

February 02, 2021 | 2 minute read

The Federal Trade Commission (“FTC”) has announced the annual revisions to the Hart-Scott-Rodino Antitrust Improvements Act (“HSR Act”) thresholds, which will become effective on March 4, 2021. Pursuant to Section 7A(a)(2) of the Clayton Act, the FTC is required to adjust the HSR thresholds annually based upon the change in gross national product. Notably, though not surprisingly given the impact of COVID-19 on the U.S. economy in 2020, this year’s thresholds have decreased slightly compared to last year’s thresholds, including the “size of transaction” threshold, which has decreased from \$94 million to \$92 million. The revised thresholds will apply to any merger or acquisition closing on or after the March 4 effective date.

Under the HSR Act, when a deal satisfies the “size of person” and “size of transaction” thresholds, and no exemption from reporting is available, the deal must be reported to the FTC and the U.S. Department of Justice and the parties must wait for a designated period of time before closing the transaction.

Size of Person. The revised size of person thresholds will generally be met if one party involved in the deal has assets or annual sales totaling \$184 million or more and one other party involved in the deal has assets or annual sales of at least \$18.4 million. Satisfaction of the size of person thresholds is not required, however, if the transaction is valued at more than \$368 million.

Size of Transaction. The revised size of transaction threshold will be met if the buyer will hold an aggregate amount of stock, non-corporate interests and/or assets of the seller valued at more than \$92 million as a result of the deal.

The notification thresholds applicable to purchases of voting securities also will decrease:

The adjustments also affect the transaction-size benchmarks that determine the amount of the filing fee to be paid when a filing is required. In addition, the thresholds applicable to many exemptions, including those governing foreign acquisitions, will decrease. The \$500 million threshold applicable to acquisitions of producing oil and gas reserves and associated assets will not change, however.

The maximum civil penalty for failing to comply with the notification and waiting period requirements of the HSR Act has increased to up to \$43,792 per day for each day a party is in violation.
